

# Solar Power Supply and Environmental Control System for DIMS Experiment

D. Shinto<sup>1</sup>, Y. Iwami<sup>1</sup>, M. Fujioka<sup>1</sup>, Y. Tameda<sup>1</sup>, K. Nadamoto<sup>2</sup>, F. Kajino<sup>2</sup> for the DIMS Collaboration  
 1. Department of Engineering and Science, Osaka Electro-Communication University (OECU), Japan  
 2. Department Of Physics, Konan University, Japan

The DIMS experiment aims to observe a candidate of a macroscopic dark matter and interstellar meteors .

- Configuration and power of observation equipment
- Temperature measurement inside and outside the camera box
- Operation test of the power supply system
- Design of power supply system
